

# Jacksonville Daily Journal.

JACKSONVILLE, ILLINOIS, SATURDAY MORNING, MARCH 24, 1906.

## DISAGREEMENT OF OPERATORS

### NOW FIGHTING AMONG THEMSELVES.

#### Miners Listeners in Joint Conference and for a Time Excluded From Room—No Settlement in Sight.

Indianapolis, Ind., March 23.—The deadlock between the coal operators and miners continued throughout the meetings of the two joint scale committees to day, and when the meetings adjourned this afternoon no agreement had been reached on the wage scale. Differences seemed at the hour of adjournment as far from adjustment as ever. Both joint scale committees adjourned to meet again to-morrow.

The discussion by the scale committee of the central district was confined entirely to day to arguments all among the operators, and radical differences of views were heatedly expressed by them. The miners' representatives were for the most part silent auditors. An effort was made to secure from President Mitchell an expression as to whether he considered the Ryan resolution in effect. This resolution was adopted by the former joint conference in January and binds the miners to not sign in any district until an agreement shall have been reached in every district. Mitchell declined to commit himself.

F. L. Robbins of the western Pennsylvania operators was the target to day for several vigorous attacks on his position in favor of paying the scale of 1905, which would mean an advance of 5.55 per cent in wages in that district and would comply with the demands of the miners. One of the most heated of these was made by J. B. Zerbe of Cleveland, who spoke for Ohio operators. After paying his respects to Robbins, Zerbe turned to Mitchell and said: "For the mere consideration of dollars and cents no strike can be justified and under no circumstances can any strike be justified, unless the benefits to be derived thereby far exceed the misery endured, human energy wasted and property destroyed. With you it can be only a question of dollars and cents. You are now getting a fair wage and one with which you have been satisfied for the last two years, but you are now demanding more; therefore, if you order this strike your position cannot be justified. The Ohio operators' position is definite. They are not now getting a fair return for capital invested and interest thereon. You demand that they surrender a portion of the returns they are now receiving. They have a right to stand for a fair return, and therefore are standing upon a principle, and if a strike should come they are justified and the responsibility rests with you."

Robbins stated on the floor that he did not propose to be dictated to by the operators of Illinois, Indiana and Ohio. He said his position was fair and just to all interests and the Pittsburgh Coal company, which he represented, was willing to pay the advance in wages asked. He said he was also willing to pay the advance of his own mines in Pennsylvania, Ohio and Illinois, and he had received notice from an Illinois coal company having an output of one million tons annually that it had instructed its representatives to vote with him. Robbins said the country would not permit a general strike upon such grounds. He turned to Mitchell and said he did not believe the officials of the miners' union would refuse to allow the miners to work where their demands were met.

G. A. Magoon, representing the western Pennsylvania independent operators, in reply to a question of Robbins, said if the Pittsburgh Coal company paid the advance and operated its mines the independent operators of western Pennsylvania will be compelled to do the same and would do so.

Dissensions among the operators became so heated and so many statements were being made that it was thought probable it could be taken advantage of by the miners, so the operators asked them to withdraw for an hour. This was done and at the end of the period the operators asked for an adjournment until to-morrow, as they had not finished their discussion. This action was taken. The operators continued in session an hour longer and then adjourned, after arranging for conferences by states among themselves to-night.

After the general caucus leading operators said this evening that nothing whatever had been accomplished and the situation was exactly as it was at the beginning of the joint conference. There seems to be no way of adjusting their differences. It was reported the operators had come to the conclusion to report to the miners to-morrow that there could be no agreement on the wage scale and the committee might as well report to the session of the joint conference but this was denied by the operators themselves.

The southwestern district accomplished nothing to day. Mitchell offered on behalf of the miners to take the 1905 scale with 3 per cent added, but this was rejected by the operators of that district. The state caucus of operators effected no change in the situation. In the cau-

cuses of Indiana and Illinois operators it was decided to adhere to the position heretofore maintained, which is to oppose vigorously the granting of an advance in wages. The Ohio operators did not meet. Western Pennsylvania operators announced the situation is unchanged.

It was announced to night by one of the national officers of the mine workers that when the joint scale committee of the central district meets to-morrow a vote will be taken on the proposition of F. L. Robbins to restore the 1905 scale with the same conditions for two years. This motion, it is anticipated, will be defeated by the operators of Illinois, Indiana and Ohio and a motion will then be adopted to report a disagreement of the scale committee to the session of the joint conference, which will be called probably to-morrow afternoon. The fight will then be made on the floor of the joint conference.

**GIRL SAVES YOUNG CHILD.**  
Anderson, Ind., March 23.—As Mabel Reeves, daughter of Mr. and Mrs. J. R. Reeves, was about to cross the tracks of the Big Four railroad on her way to school to day she saw a little girl standing on the tracks, evidently trying to extricate her foot from a frog. Miss Reeves saw a passenger train bearing down upon them. The child began to cry and screamed and struggled desperately, but could not free herself. Miss Reeves hurriedly drew a penknife from her pocket and slit the child's shoe, and jerked her away from the track just as the engine bore down upon her.

## ACTIONS BEGUN

### Against Former Head of Mutual Life Insurance Company and Others.

New York, March 23.—The first action in a series of eight actions already begun by the Mutual Life Insurance company against former President Richard A. McCurdy, his son, Robert H. McCurdy, and the firm of Raymond & Co., the company's former metropolitan agents, was made public to day. The complaint against former President McCurdy contains nine separate causes of action. In each McCurdy is charged with the waste of large sums of money belonging to the company through alleged unfaithfulness and neglect in the discharge of his duties. Damages amounting to three and a quarter million dollars are demanded.

The first five causes seek to recover in the aggregate \$2,500,000, as alleged contributions to political parties since Jan. 1, 1885. The sixth cause seeks to recover \$250,000, embracing the \$50,000 alleged increase in the annual salary drawn by the former president since June 1, 1901.

The seventh cause seeks to recover \$600,000 as the aggregate of sums drawn quarterly from the company for the last six years of McCurdy's presidency, on vouchers of the commissioner on expenditures, and under circumstances detailed in the testimony before the Armstrong commission.

The eighth cause deals with the relations of Louis A. Thebaud, son-in-law of ex-President McCurdy, with Raymond & Co., and "gratuities and rates of commission" received by the firm.

The final cause of action deals with \$1,292,541 received by Robert H. McCurdy as commissions from 1886 to Nov. 1, 1905. Finally, the company demands judgment against ex-President McCurdy for \$3,370,431, with interest, as damages for alleged unfaithfulness and neglect.

## SHERMAN AND DAWSON

### May be Selected Head Officials of Republican Congressional Committee.

Washington, March 23.—Representative Dawson, of Iowa, is being discussed by Republican leaders to succeed Representative Overstreet of Indiana as secretary of the Republican congressional committee. Dawson was secretary to Senator Allison for six years and in four years of service as head of the speakers' bureau of the Iowa state Republican committee made a record for organization which has caused western Republicans to urge his selection.

It is generally conceded that Representative Sherman of New York will be named chairman of the Republican congressional committee, and Representative Tawney of Minnesota is still the most discussed candidate for vice chairman. A joint caucus for organization of committees will probably be held next week.

**BANK CLEARINGS.**  
New York, March 23.—The total bank clearings, as compiled by Bradstreet, for the principal cities of the United States the past week, were \$2,339,555, an increase of 2.0 per cent as compared with the corresponding period last year.

**PATTISON'S CONDITION.**  
Columbus, Ohio, March 23.—In a bulletin issued to night Governor Pattison's physicians report a steady improvement in the patient's condition.

Ann Arbor, Mich., March 23.—The University of Michigan defeated Wisconsin in the annual debate. Michigan favored constant regulation of railroad rates.

## ADDRESS ON REPUBLICANISM

### DELIVERED BY SECRETARY OF TREASURY SHAW

#### Makes Lengthy Argument in Opposition to Change in Tariff Schedules at Present—Refers to Factional Fight in Iowa.

Des Moines, Iowa, March 23.—Secretary Shaw delivered an address on "Republicanism" here to night, in which he made an elaborate argument against any change in tariff schedules at present, because it would endanger Republican success in 1908. Much interest was manifested throughout Iowa in the address because it was expected the secretary might enter into a discussion of the factional fight in the Republican party in Iowa. He made no direct reference, however, but did refer incidentally to the activities of progressive Republicans, declaring they are stirring up discontent within the party that is a menace. "Republican orators are again teaching discontent," he said, after referring to Republican defeats of the past. "Several times during the present session of congress prominent members of the opposition party have quoted a distinguished Republican as saying in effect that all robberies and thefts committed by all insurance officers since the life insurance business was originated, do not amount to as much extortion as the Dingley bill for one year. This is but a sample of what has been taught not only in this but in other states."

On the subject of tariff revision Shaw said: "No party can ever revise the tariff in safety and the only time to risk the experiment is after an extraordinary session immediately following the inauguration of a new administration. The reason is well high self evident. Every man knows, or thinks he knows, of three or four changes which are all important. Failing to get all of them, he is dissatisfied. He gives no credit for preserving the general principle of protection; he gives no credit for preserving most of the schedules in which he is interested; he gives no credit for the few changes made which he thinks necessary. There he has a right to expect, for they are just, but the change which he thinks should be made that is not made, and especially the change which he thinks ought not to be made that is made, sends him to the polls prepared to hit something and the party in power is the only thing in sight."

**CRIME OF LARCENY**  
Political Contributions of Insurance Companies May Be So Designated.  
New York, March 23.—If the grand jury which is investigating some of the conditions developed by the recent legislative investigation reaches the conclusion that contributions of insurance company funds to campaign committees were made with intent to deprive or defraud the true owner of his property, it must find that larceny was committed. This opinion was expressed to day by Justice O'Sullivan in the court of general sessions in answer to a presentment on the subject submitted to him by the grand jury. Judge O'Sullivan added that it is not within the province of the court to say whether or not there was intent. That is a question which the jurors must determine for themselves from the facts and circumstances in the case. He charged the jury to make a thorough investigation into the facts and to place the responsibility for such crimes, if they find that crimes were committed.

This opinion is in effect directly opposite to one upon the same subject given by District Attorney Jerome several days ago. Jerome in his brief, which was submitted to O'Sullivan, held there was no ground for prosecution of any insurance official in connection with campaign contributions, taking the ground no intention to defraud had been shown.

## MORO WARFARE

### Chief of Constabulary Speaks of Conditions on Island of Jolo.

Lexington, Ky., March 23.—In an address before the chamber of commerce and a large audience to night Capt. Henry T. Allen, chief of the constabulary of the Philippines, who is at home on furlough, discussed the recent battle in the island of Jolo.

"It is easy for us to sit at home and criticize our own blood for what we fancy is brutality in dealing with the hostile Moros," he said. "Conditions are little known or we would hesitate to do so. A gentleman told me to day that he thought a more humane method of subduing the hostile band which we engaged ten days ago would have been to surround the mountain and starve them out. He little

appreciated the impossibility of such a plan. First, you cannot appreciate how many men would be required for such a feat of arms. You cannot understand the jungle with which even a great army would have had to contend. Such a plan would only have enabled the enemy to escape and continue marauding, and within a distance of fifty feet they could have slain many American troops and never been seen. I have been ambushed myself and know that within half a mile a Filipino can conceal himself, easily deal a blow and escape before being discovered."

"Those hostile Filipinos gloried in death and wanted the women to share their fate. Allow them to escape and this ambush warfare would continue indefinitely, their strength doubling immediately with each escape. What to us would be termed a left handed victory would give great encouragement to them."

**TWENTY-THREE DEAD.**  
Philippi, W. V., March 23.—The death list in the Century mine disaster has now reached twenty-three, while twenty or more are injured. Officials of the company reported to night that twenty-two bodies have been recovered and but one is in the mine. A thorough canvass of the district was made by representatives of the company to day and all employees have been accounted for but one, who is thought to be buried beneath the debris in the mine.

## DR. GOODWIN DEAD

### Filled Pastorate in Jacksonville at One Time—Died at Los Angeles.

Chicago, March 23.—Word was received here of the death of Rev. William Dees Goodwin, D. D., at Los Angeles, Cal., to day. In 1886 Dr. Goodwin resigned the presidency of Brookville college, Indiana, to accept a professorship in Illinois Wesleyan university at Brooklyn, Ill. Thereafter he filled pastorates in Illinois at Lincoln, Champaign, Quincy, Mattoon, Danville, Decatur and Jacksonville. He occupied the pulpit of the Sacramento Avenue church in San Francisco for two years, going thence to Los Angeles, where he had since resided.

Funeral services will be held Monday at Los Angeles.

Dr. Goodwin served as pastor of Centenary church in this city about 1880. He will be remembered by many here who will regret to learn of his demise.

## MORE TROUBLE IN THE HOUSE

### ENDEAVOR TO LEGISLATE WITH BRAKES ON.

#### Application of Rules on Legislative Bill Creates Havoc—Senate Passed Fortifications Appropriation Bill.

Washington, March 23.—The house again endeavored to legislate with brakes on to day. The result was some friction and heat and the speed in considering the legislative bill was correspondingly slow. The debate threw many sidelights on the rules of the house and their vigorous application to the bill in hand by Prince of Illinois and Andrew of Georgia, wrought havoc with the force of the civil service commission wherever increases of salary or force were proposed, as well as other positions for which managers of the bill could find no statute law.

The particular rule invoked provides no appropriation bill shall be reported which contains new legislation or provision for salaries not authorized by law. Prince wanted the committee to see what it was to have the rules enforced, and Tawney retorted with the statement that a special rule would be brought in later and would put back all the items struck out. About one-third of the bill has been considered.

**SENATE.**  
Spencer to day concluded his speech in the senate on the railroad rate bill and the fortifications appropriation bill was taken up and passed. The bill carried an appropriation of \$125,000 for the erection of a powder manufactory and Daniels spoke at length in support of the provision. A debate of the nation was entirely at the mercy of the powder trust and urged the amendment should be adopted as a safeguard. As passed the bill carries an appropriation of \$5,758,000.

Tillman spoke on the rate bill and suggested that the interstate commerce commission should have authority to enjoin railroads from increasing their rates. He said the proposition had been made by a "corrupted lawyer" in Oklahoma.

**WANTS EXTENSION.**  
Secretary Taft submitted a letter to Speaker Cannon to day urging that when the house prepares a bill for the support of the Military academy the limit of total expenditures for improvement of the academy be extended \$1,700,000 to enable the completion of the institution as projected. The present limit for improvements, as fixed by law, is \$3,551,000.

**CONFERS WITH PRESIDENT.**  
Secretary Root and French Ambassador Jusserand had a long conference with the president at the white house this afternoon. While it was surmised that the discussion bore on the Moroccan conference, no definite information could be obtained.

**CUBAN GENERAL DEAD.**  
Havana, March 23.—Gen. Julio Sanguily died here to day. He gained his military title in the Cuban insurrection of 1895, rising from the ranks by notable bravery and energy. He also took part in the first Cuban revolution, but in 1897 was captured by the Spaniards, who tried and sentenced him to be imprisoned for life. Sanguily, however, claimed American citizenship and through the intervention of the government at Washington was released.

**GAVE HIMSELF UP.**  
Peoria, March 23.—Rev. E. Louis Kelly, partner of the late Rev. Dr. George Simmons in the People's Savings bank, recently indicted by the grand jury, voluntarily returned to day and gave himself up to Sheriff Potter. The hearings will be held next Thursday.

**DENIAL BY GOVERNOR.**  
Boise, Idaho, March 23.—Gov. Frank I. Gooding to day denied he had issued any proclamation addressed to the "Labor Unions of the United States," as stated in a dispatch sent out under a Boise date.

**BOWLING CONGRESS**  
Records Broken by Two Man Teams—High Marks Established Thrown Out.

Louisville, Ky., March 23.—The breaking of records by two two-man teams and action of the executive committee of the American bowling congress in throwing out the high mark established last night resulted in several changes to day in those at the top in the race for first money at the tournament. The previous world's record for two-man teams rolled under slightly different conditions was 1,237, but Read and Deushack of Columbus to day went as high as 1,247, only to be themselves beaten in the same set by Hamilton and Thiesse of Philadelphia, who rolled 1,250.

The executive committee threw out the record of 653 made last night by W. Arthur Tuftill of Brooklyn, rolling in individuals for Charles Carlson of the Chicago Century. The record was discarded because Carlson, who had broken a finger, should have engaged Stevens, the man who took his place two days ago. The standing of individuals now shows D. Meyers of Detroit first, with 694; H. Holloway of Indianapolis, second, 618; Vanderside of Chicago, third, 612.

Among the scores made by five-man teams to night were: No Name, Moline, Ill., 2,679; Clippers, Oshkosh, Wis., 2,561; Bloomington, Chicago 2,435.

## MORE TROUBLE IN THE HOUSE

### ENDEAVOR TO LEGISLATE WITH BRAKES ON.

#### Application of Rules on Legislative Bill Creates Havoc—Senate Passed Fortifications Appropriation Bill.

Washington, March 23.—The house again endeavored to legislate with brakes on to day. The result was some friction and heat and the speed in considering the legislative bill was correspondingly slow. Secretary Root and French Ambassador Jusserand had a long conference with the president at the white house this afternoon. While it was surmised that the discussion bore on the Moroccan conference, no definite information could be obtained.

**CUBAN GENERAL DEAD.**  
Havana, March 23.—Gen. Julio Sanguily died here to day. He gained his military title in the Cuban insurrection of 1895, rising from the ranks by notable bravery and energy. He also took part in the first Cuban revolution, but in 1897 was captured by the Spaniards, who tried and sentenced him to be imprisoned for life. Sanguily, however, claimed American citizenship and through the intervention of the government at Washington was released.

**GAVE HIMSELF UP.**  
Peoria, March 23.—Rev. E. Louis Kelly, partner of the late Rev. Dr. George Simmons in the People's Savings bank, recently indicted by the grand jury, voluntarily returned to day and gave himself up to Sheriff Potter. The hearings will be held next Thursday.

**DENIAL BY GOVERNOR.**  
Boise, Idaho, March 23.—Gov. Frank I. Gooding to day denied he had issued any proclamation addressed to the "Labor Unions of the United States," as stated in a dispatch sent out under a Boise date.

**BOWLING CONGRESS**  
Records Broken by Two Man Teams—High Marks Established Thrown Out.

Louisville, Ky., March 23.—The breaking of records by two two-man teams and action of the executive committee of the American bowling congress in throwing out the high mark established last night resulted in several changes to day in those at the top in the race for first money at the tournament. The previous world's record for two-man teams rolled under slightly different conditions was 1,237, but Read and Deushack of Columbus to day went as high as 1,247, only to be themselves beaten in the same set by Hamilton and Thiesse of Philadelphia, who rolled 1,250.

The executive committee threw out the record of 653 made last night by W. Arthur Tuftill of Brooklyn, rolling in individuals for Charles Carlson of the Chicago Century. The record was discarded because Carlson, who had broken a finger, should have engaged Stevens, the man who took his place two days ago. The standing of individuals now shows D. Meyers of Detroit first, with 694; H. Holloway of Indianapolis, second, 618; Vanderside of Chicago, third, 612.

Among the scores made by five-man teams to night were: No Name, Moline, Ill., 2,679; Clippers, Oshkosh, Wis., 2,561; Bloomington, Chicago 2,435.

## WOMAN KILLED.

Portland, Ore., March 23.—Mrs. Alice Milligan, wife of a tugboat employe at Aberdeen, Wash., but known among her associates here as Miss Alice Gordon, was shot and killed in a lodging house to day by George Blodgett of The Dalles, Ore. She formerly resided at Winona, Minn. Her maiden name being Schoenherr.

## DEFENDED TITLE.

Asheville, N. C., March 23.—Frank A. Cote of Humboldt, Iowa, successfully defended his title to the American heavyweight wrestling championship here to night by defeating Charles Olsen of this city, winning first and third bouts of the match. Olsen took the second bout.

## ANNUAL BANQUET.

New York, March 23.—With Attorney General Hadley of Missouri as its principal guest, the Missouri society of New York held its annual banquet to night. Samuel M. Gardnershire, president, introduced Attorney General Hadley, who was accorded a most flattering reception.

## NEARING AN END

Moroccan Conference May Reach an Agreement Through Mediation of United States.

London, March 23.—Commenting on the Moroccan situation, the Outlook to day says there is very little doubt that the Algeiras conference is on the eve of its last sitting and that an agreement will be reached tomorrow upon the heads of the Austrian proposal, but in reality through mediation of the United States. The plan, the writer says, deprives Germany of victory in any dramatic form, but means nevertheless defeat of all the original purposes of France and of the British policy on which the Anglo-French agreement was founded. Mixed control of the ports of Tangier and Mogador, the Outlook says, means internationalization in its weakest form, nullifies the policy of pacific penetration, defeats all ends aimed at in the main clause of the Anglo-French convention and secured to Emperor William's purposes. France is deprived of all real influence upon the interior and confined to a local role at three ports out of eight.

## GERMANS VEXED.

Berlin, March 23.—The German government evidently is greatly vexed at some of the latest claims put forth by the French government. The Cologne Gazette in an inspired Berlin dispatch, refers to Regnaud's attempt to secure from France control over Moroccan customs administration and says: "These petty annoyances which must be regarded as a declaration that if France persists in making trouble and in insincerity, Germany would not advise further conciliatory steps, for the proof would be clear that an agreement was prevented by the other side."

## DEATHS.

Omaha, Neb., March 23.—Frank E. Moores, aged 66 years, mayor of Omaha, died this afternoon after an illness of several months. He was serving the last year of his third term as mayor and had long been prominent in the Republican party of the city and state.

## ORATORICAL WINNER.

Iowa City, Iowa, March 23.—V. L. Myers of Muscatine, was the winner of the annual contest in oratory at the Iowa university to night. He received as a prize \$20, the gift of George W. Egan of Logan, Iowa.

## PURE FOOD COMMISSIONER.

Springfield, March 23.—Governor Deeney to day appointed Herman Schuchey of Elgin assistant to Judge Jones of Robinson, pure food commissioner. Schuchey succeeds Randolph M. Patterson of Chicago.

## ALLOWANCES CUT OFF

Action Against Indians Who Have Sued Government

Ashland, Wis., March 23.—An order issued by the Indian affairs bureau has caused much excitement among Chippewas of Wisconsin and Minnesota. The order directs the agent of the LaPointe agency to discontinue the payment of monthly allowances to such Indians as have begun suit against the government for immediate payment of moneys now on deposit in banks at Ashland, Hudson and elsewhere to the credit of Chippewa Indians. The money amounts to nearly half a million dollars. About one hundred Indians, who have begun suit to compel immediate payment and that in so doing they have assigned their rights to the money to private parties. The government, therefore, is compelled for its own protection to suspend payment of monthly allowances until the suits are settled. As the cases are likely to be in the courts several years the outlook for the Indians is not rosy.

## COLD WEATHER RETARDS TRADE

### EFFECTS OF SNOWS AND FREEZES FELT.

#### Uncertainty of Coal Strike the Cause of Hesitancy in Industry—Railway Earnings Continue Large—Other Features.

New York, March 23.—Bradstreet's Trade reports are still rather mixed in character. Business feels the effects of continued winter weather and heavy snowfalls and freezing weather, which have hurt early fruits and trucking interests, retarded retail trade and affected jobbing sales and shipments. Building operations have been interrupted, but this is only temporary. The winter wheat crop has been put beyond harm by the heaviest snowfall in years, at this period. Uncertainty as to the coal strike induced hesitancy in some lines of industry, but has largely stimulated the coal and coke business. Pig iron is dull, but steel rail sales are numerous and immense expenditures for railway building in the west and northwest are projected. The demand for money is active, hence rates are firm and promises to do well into the balance of the year. Railway earnings are really magnificent, the ratio of gross receipts carried over to not having never before been equalled. Additional interesting features are numerous reports of wage advances made in several industrial lines, the growth of feeling that a great coal strike will not occur and the strengthening of prices of leading staples.

Wheat, including flour, exports from the United States for the week were 2,335,000 bushels, against 1,315,000 this week last year; from July 1 to date, 101,445,000 bushels, against 66,611,000 last year. Corn exports this week were 3,174,000 bushels, against 2,977,000 a year ago; from July 1 to date, 92,326,000 bushels, against 41,085,000 in 1905.

**DUN'S REPORT.**  
R. G. Dun & Co.: "The total distribution of spring merchandise has received a check because of the heavy snowfall and severe storms. Confidence in the future is remarkably bright and the outlook would be far better than ever before at this season if the fuel uncertainty were removed. Manufacturing plants operate close to the maximum capacity in leading industries and it is evidence of no little insightfulness that many mills cannot undertake deliveries before 1907. While these are extreme cases, it is a common thing to find the production engaged for several months in advance. Mercantile collections are more prompt except in certain parts of the South. Commodity prices are slightly higher on the whole and building materials continue to be very strong, structural work being abnormally heavy for the season. Railroad earnings for March thus far surpass last year by 2.05 per cent and per cent, and foreign commerce at this port for the last week shows a gain of \$2,697,000 in imports over the same period of 1905, while exports are practically unchanged. A somewhat better tone in the hide market was the result of last week's activity in leather."

The number of failures this week in the United States was 21, against 256 for the same week last year.

## Most physics cause chronic constipation—or worse

Chronic constipation, piles, appendicitis and other such intestinal afflictions are more often caused by improper physics than anything else. The average physic, whether it is in the form of a water, candy, pellet, or pill, is intended to quickly and unnaturally move the bowels. Such an unnatural treatment so shocks and weakens the intestinal muscles that the continued treatment of stronger and stronger physics becomes necessary. This produces chronic constipation.

Piles and appendicitis are caused by the violent manner in which these explosive drugs attack the intestines.

### Dr. Caldwell's Syrup Pepsin

In the ordinary sense is not a cathartic. It is a laxative that acts differently from all other preparations. It contains great tonic properties, which strengthen instead of weaken the intestinal muscles. It is pleasant to take, does not grip or cause pain and never creates a necessity for the continual use of any physic. All druggists sell Dr. Caldwell's Syrup Pepsin for 50 cents and \$1.00 a bottle.

Money back if it doesn't satisfy.

Pepsin Syrup Co. - Monticello, Ill.

### A Solemn Duty.

A solemn duty which we owe society, our children and ourselves is that nothing which can be done to assist nature at that time when our wives are to become mothers should be left undone. Of all the countless details to be observed at such a time, no single one is of more importance than the bodily welfare of the expectant mother; she must not experience undue suffering through any lack of effort on our part.

### MOTHER'S FRIEND

should be the recourse of all real men and women at such times. It is easily obtainable, and is a positive crime not to procure it. Its offices are to relax the muscles and tissues intimately associated in this greatest of the Creator's phenomena, and by simple external applications a result is obtained which at the appointed time permits the mother to undergo her greatest joy with fortitude, and bring into the world a child worthy of its parents. \$1.00, all druggists. Our book "Motherhood" sent free.

## DEDICATION DAY

NEW CHRISTIAN CHURCH  
WILL BE APRIL 20.

Description of Edifice—Interior Arrangement Meets All Requirements of Modern House of Worship.

Has Seating Capacity of 1,500—Cost \$64,000.

April 20 has been determined as the date for the dedicatory services of the new Christian church. Rev. F. M. Rains, of Cincinnati, Ohio, treasurer of the Foreign Missionary society of the Christian church, has been selected to preach the dedicatory discourse and he will also make an address at the afternoon service. There will be three services during the day and a more detailed account of their character will be given later.

### DESCRIPTION OF BUILDING.

The new Christian church, the most pretentious church edifice in the city is architecturally beautiful and from a utilitarian standpoint little more could be desired. There is not a particle of waste room about the entire structure and the interior arrangement is well high perfect.

The building stands upon a centrally located and very desirable lot at the corner of West College avenue and South Church street. The lot has a depth of 180 feet and a frontage of 173 feet.

The building occupies 88 feet of the frontage and runs back 123 feet. It measures 72 feet at its highest point and faces West College avenue.

The style of architecture is pure Gothic with two square towers in front and one square tower on the west side over the entrance to the Sunday school department. The body of the church is of blue Bedford sandstone with trimmings and window casings of buff Bedford sandstone. Thirty-four carloads of stone entered into its construction and about 500,000 paving blocks. The roof is of slate and all metal about the building is of copper so that all possibility of rusting is precluded. The window frames are of solid stone and no woodwork is exposed to the weather except the doors. All of the windows are of art glass and are set in stone grooves, leaded in and thus made air-tight.

### ENTRANCES.

There are three main entrances and two side entrances. Two of the former are on College avenue, with a handsome bow window between them, and one on Church street, while the side entrances are approached from the east. The main entrances are adorned with handsome Gothic lanterns of ornamental wrought iron. There are thirty-three separate apartments, besides the vestibules. Solid oak doors lead to the vestibules which are sixteen feet square and entrance to the main auditorium and balcony from the latter is effected by passage through double acting oak doors. The stairways to the balcony have oak treads and the banisters are of same finish.

### MAIN AUDITORIUM.

The main auditorium is finished in white oak and is 57x57 feet. The pulpit platform, choir loft and organ loft are in the southeast corner of the room which lies northeast and southeast. The balcony extends semi-circular around the northeast corner and the latter has tiered seats. The pulpit arrangements are deserving of special mention. The pulpit platform proper is semi-circular and a handsome pulpit desk rests at the center point of the semi-circle. On each side are two pedestals for flowers.

Along the base of the semi-circle is a large pulpit oak bench of attractive design. Back of the pulpit platform is an ornamental oak railing with panel facing and extends around the choir loft, which will seat eighteen people. Back of the choir loft is the organ loft with organ encased in oak to match the woodwork of the main auditorium. At the extreme south end of the pulpit has been placed a lectern, so situated that a speaker can stand before it, and when the large partition raises and descends the Sunday school section, the speaker can stand under the arch that separates the two rooms and from the lectern can be seen and heard by auditors in both rooms.

Steps on the right and left sides lead to the pulpit platform and entrance to the choir loft is by means of a door in the north side of the paneling of the organ.

### BAPTISTRY.

The baptistry is situated in a recess in the east wall of the main auditorium just north of the pulpit and organ loft and plainly, visible from all parts of the main auditorium and balconies and can be seen from a considerable portion of the Sunday school department. It is made of cement on brick arches and lined with white enamel tile. The front foundation which extends into the auditorium proper, is faced with Italian marble. Resting on this marble facing are four white stucco Gothic columns, while above this aperture which reveals a handsome oil painting of the River Jordan and made possible by the col-

umns, are four ornamental stucco frescoed panels. Above these panels is an elegant art glass window showing Christ Before the Doctors in the Temple. There is another art glass window on the north and another on the west.

### THE CEILING.

The ceiling is dome shaped and leads up to a central dome. It is broken by eight arches and between the arches the ceiling is concave. The central dome is bell shaped and formed of art glass while above this dome is the sky light. This central dome arrangement affords fine lighting facilities and also excellent ventilation. The arches are studded with stucco hawks and in each of the latter is an electric bulb. There are a hundred and nineteen lights in the ceiling, doing away with the chandelier which is often a hindrance to acoustic properties.

The side walls are in water color of green which fades into a pretty salmon color at the point where the arch of the dome begins to form from the side walls. The walls and ceiling are frescoed, not elaborately but in excellent taste and very attractive designs. An oak paneling three feet high completes the mural setting. Underneath the balcony are hexagon burnished brass combination fixtures equipped with gas and electricity. There are five of these chandeliers in the lower floor with four lights each. There are also six wall gas brackets of three lights each and two pulpit brackets of equal number of lights.

### SEATING CAPACITY.

The main auditorium has a seating capacity of 460 while the balcony will accommodate 260. The pews of the balcony are placed on terraces and the pews on both floors are of oak, made to match the paneling and woodwork, and are of special design. A handsome green Brussels carpet will be the floor covering for the main auditorium.

Opening from the main audience room on the north and separated by sliding and folding doors with glass panels in the rest room, 20x12 feet. It is handsomely frescoed and paneled to match the room which it adjoins, with entrances from each vestibule. It is lighted by two chandeliers of six lights and has four art glass windows.

### SUNDAY SCHOOL DEPARTMENT.

The Sunday school department is on the south of the main auditorium and a sliding partition which disappears in the partition wall, is the means of separation. The floor space of the Sunday school room is 56x88 feet with a main room for superintendent and others, 32 feet square. This latter room will be used for prayer meeting services and meetings of the Christian Endeavor. Surrounding this space on three sides are nineteen class rooms, seven below and twelve above. These class rooms can all be thrown into one large room by means of sliding partitions. There is also a small door in each partition for entrance of the secretary while the classes are reciting for the purpose of taking the roll and class records. These partitions all have glass panels and each room has one or more art glass windows. This plan for the Sunday school is modeled after the world's fair model and is said to be the latest and most perfect plan devised for Sunday schools.

The Sunday school department has a seating capacity of 625 and when the room is thrown together with the main auditorium and rest room, there is a total seating capacity on the lower floor and balcony of 1,500.

Two stairways lead to the Sunday school balcony and the main Sunday school entrance is on the west side of the building. Each class room is lighted with a chandelier having two electric lights. There is a handsome combination chandelier in the main Sunday school room of thirty-two lights. The ceiling of this latter room is of frosted glass set in square panels with four ventilators in the center, and above this is the sky light. The main Sunday school room and class rooms are in green water color. The main Sunday school room will be carpeted with cork and the class rooms with linoleum laid over heavy padding.

The seats for the Sunday school department are elm chairs. There are 350 of adult size and 100 for the primary department. Some of the class rooms are equipped with blackboards and the Sunday school balcony railing will be ornamented with a pretty brass railing.

The Sunday school superintendent's platform is set on casters and can be moved from place to place. On the east of the main Sunday school room is a platform recess for the Sunday school orchestra.

### ONE STORY PORTION.

Passing out of the east entrance to the main Sunday school brings one to the east portion of the building which is only one story. From north to south is a narrow corridor and opening into it are a series of rooms. The first room on passage to the north is that of the Sunday school superintendent and officers of the Sunday school. Here the furniture consists of a roll top desk with book shelves, etc. Combination fixtures with art glass windows afford the lighting facilities for each room.

The next room is the choir cloak room and opposite this room is the entrance to the choir loft. Just inside of this latter entrance is the music cabinet for the musical director of the choir.

Next are the two baptistry dressing rooms, one for gentlemen and one for ladies. The baptistry entrances

are opposite the entrances to these two rooms and an inclined plane leads to the center of the pool on which is a covering of corrugated matting. Passing from the corridor one enters a reception hall from which entrance to the pastor's study is effected. There is also an outside entrance to this reception hall.

The pastor's study is nicely fitted with desk and wall book shelves and has art glass windows and combination fixtures.

### THE BASEMENT.

The basement, which can hardly be called such, is to be known as the social department of the church edifice.

It has a most complete cuisine, which is located on the southeast corner of the basement. The room for the valuable accessory to the modern church is 20x12 feet. There are two sinks equipped with hot and cold water. Dish cupboards beneath which are linen drawers and four large serving windows make the appointments here all that could be desired. There are neat combination fixtures of bauer half material. West of the kitchen is the dining room, 35x45 feet. Eight folding tables of special construction afford seating capacity for 150 persons and small chandeliers give ample light facilities. West of the dining room is the ladies' parlor which is separated from the dining room by folding sliding doors.

The parlor has an immense fireplace and will be furnished with a piano, several large rugs, five chairs, a settee and two old Mission rockers. The parlor and dining room are both equipped with large coat and hat closets.

### ENTERTAINMENT HALL.

Leading from the dining room on the north is the entrance to the entertainment hall which has a seating capacity of 400 and which is directly under the main auditorium. It is separated from the dining room by folding doors. There is a platform at the north end of the hall with dressing rooms on each side and "overhead footlights."

The side walls of the basement are done in water color, green shade, while the ceiling is in light yellow. There are three toilet rooms in the basement.

### HEATING APPARATUS.

The heating apparatus for this immense structure is of the most approved pattern and a system of direct and indirect radiation is employed. The basement is heated by wall radiators and the main floor and balcony by floor radiators. Ventilation is secured by means of cold air ducts under each radiator. At each corner of the main auditorium is a large gas burner inclosed in a galvanized iron chimney which draws the air out through the chimney. Around the main chimney is an air space that admits of the air being drawn in under the pulpit platform and out of the building.

This building is one of the most complete structures that has ever been erected in Jacksonville. It is the most beautiful church in the city as well as the largest. In its thoroughness of equipment it stands second to none in the country. People and pastor may well take pride in the work that has been accomplished and every citizen also finds cause for pride.

Rev. R. F. Thrapp, the efficient pastor of the church, has watched with untiring zeal the progress of the building and despite pastoral duties has rendered most loyal service to his people in this regard. Through his stirring appeals for months in advance of the actual work of construction the congregation were prepared for the project and when its execution was finally entered upon there was present in the hearts of all the kind of spirit and enthusiasm that wins.

The able building committee composed of Messrs. J. R. Lorr, chairman, W. L. Fay, D. Rees Browning, C. R. Taylor, C. L. Dopow, George Brady, Robert Muteh and R. F. Thrapp has been of inestimable value in bringing to pass the completion of the undertaking.

The cost of the lot and building will be \$64,000, cost of building, \$54,000. Those to whom this expenditure has been made and who have given value received, are:

S. R. Badgley, architect, of Cleveland, Ohio.

Arbogast & Ballard, contractors, of Mattson, Ill.

Jacksonville Brick Co.

August Faugust, roofing and metal work.

Landers, Keefe & Co., heating and plumbing.

G. A. Sieber, electric wiring and fixtures.

H. W. Hooker Co., of Chicago, art glass.

Schoenhacker & Co., of Springfield, frescoing.

Riggs Bros., painting.

J. W. Moon, cement work.

William Nunes, excavation and grading.

DO NOT NEGLECT A BAD COLD.

Never allow a cold to take its course. Too often at this season of the year its course is towards pneumonia. Chamberlain's Cough Remedy will promptly cure your cold and dispel all danger of that disease. There is nothing better for acute throat and lung troubles. For sale by all leading druggists.

## Beginning the Last Two Weeks of Our March Introductory Sales.

Despite inclement weather and almost impassable country roads, our March Introductory Sales have thus far been successful beyond our wildest foncios. The real bargains here offered have attracted hundreds of enthusiastic buyers to "The Big Store." We believe that, without a single exception, every person was satisfied with his purchase. These March sales have made hundreds of new friends for "The Big Store."

The sales continue for two weeks longer, the discounts in all the various departments continuing as during the past two weeks. We urge all those contemplating the purchase of any of the following lines to make an extra effort to visit this store before making purchases.

Every piece of merchandise in the store is marked in plain figures. Every article sold bears our guarantee of absolute satisfaction or your money back. The various discounts follow:

<b>Furniture:</b> - - 20 per cent	<b>Carpets</b> - - 20 per cent
<b>Dress Goods:</b> - 25 per cent	<b>Chinaware</b> - 20 per cent
<b>Underwear:</b> - 50 per cent	<b>Blankets:</b> - - 50 per cent
<b>Knit Goods:</b> - 50 per cent	<b>Embroideries:</b> 25 per cent

### HAD PLEASANT TRIP.

Capt. J. W. Waller, wife and daughter, returned Friday from Mobile, New Orleans and other southern points, where they have spent the last seven weeks. They report a delightful trip and many pleasant experiences. Capt. Waller visited many of the battlefields of the south upon which he saw service as a union veteran. He was particularly anxious to see a dismounted cannon which he had a part in silencing and after many inquiries found it had been preserved and was mounted in front of the Confederate museum at New Orleans. The cannon was a part of the Spanish fort fortifications at Mobile. He found upon inquiry at the museum that the custodian was in command of the field piece at the time it was dismounted. He had asked to be given command of a mounted field piece and was told by his superior officer that as soon as one was taken from the union lines, which he added would be in a short time, he should be given command of it. In replying to questions of Capt. Waller he told him that the union field piece was never taken but that instead the Yankees captured the rebel field piece. After it had been dismounted the barrel was filled with grape and canister and an effort was being made to fire it in its dismounted condition when the rebel lines were taken and further resistance on the part of the confederates was abandoned. He remarked to Cap. Waller that the men who stood before that battery were indeed brave men and he was glad to shake the hand of a northern soldier who had exhibited such courage. This is only one of the many experiences that Capt. Waller enjoyed while traveling through the south.

Had it not been for the illness of his daughter, Miss Marie Waller, the trip would have been prolonged. His many friends and comrades are glad to welcome him home.

### OUR NEW MINISTER.

What makes Denman Thompson and George W. Ryer's greatest of all character plays, "Our New Minister," which comes again to the opera house on Thursday, April 5, so powerful is the strength of its characters. It is not a one man play, every part is of weight and each part is capably handled by that sterling all star cast which will again be seen on this occasion.

### PAVING CONTRACT.

A. F. Franks has been awarded the contract for the paving of a mile and a half of street in Edwardsville. Mr. Franks will begin the work as soon as the weather will permit. He has his outfit in this city.

### WOMAN'S CLUB MEETING.

The Woman's club will meet this afternoon at 3 o'clock in the chapel at the Grand opera house that of the Woman's college. W. B. Moulton, chairman of the state civil service commission, will speak on some phases of the civil service law. Men and women interested in this subject are invited to be present. Especially attractive musical numbers will be given by Miss Kreider and Miss Taylor.

### LICENSED TO MARRY.

William Meier, Mercedes; Lena Leonhard, Mercedes; J. Presley Wood, Centerville; Della Scott, Modesto. Herbert W. Pinkerton, Berdan; Tina Deshazier, Berdan.

### OUR NEW MINISTER.

There is one attraction to be seen at the Grand opera house that of the Woman's college. W. B. Moulton, chairman of the state civil service commission, will speak on some phases of the civil service law. Men and women interested in this subject are invited to be present. Especially attractive musical numbers will be given by Miss Kreider and Miss Taylor.

### CHILDREN'S STORY HOUR.

Three o'clock this afternoon is the time of the children's story hour at the public library. All children between the ages of six and twelve years are invited.

### REAL ESTATE TRANSFERS.

A. F. Kinner, et al. to A. F. Franks, part w. 2, 20, 28, 15-10; \$6,957.50.

## Study Our Coal

and you will easily understand why it gives such unvarying satisfaction. It is always clean and is at all times priced as low as is possible under existing conditions. If you use coal in large quantities you will find our coal and our terms very satisfactory.

## Another Big Firm Closes Its Doors.

A shortage in the accounts is said to be the cause of a great many firms, partners, and small dealers going out of business, and the above headline is one we read every day. If you should have your books examined by a competent party you would be surprised to find the state of your business. Often an examination and reconstruction of a set of books saves a man from ruin.

Let us quote you terms and show you how others have saved themselves from the clutches of debt.

### THE PURE FOOD ROLL OF HONOR

"Good Housekeeping," a well known household national magazine, voluntarily made a thorough examination and test of Non-Such Mince Meat, and placed it without reservation upon its roll of honor. In the March number of Good Housekeeping, in the department of "Pure Food Assurance," we find:

"Non-Such Mince Meat, Merrill-Soule Co., Syracuse, a semi-moist condensed compound of beef, apples, spices, sugar, raisins, currants, boiled cider and salt, without other preservatives or adulterants, no artificial coloring, produced under conditions as near to sanitary perfection as possible."

This guarantee, which could not be bought at any price, ought to satisfy the most particular housewife. The sale of one million packages a month seems to prove the statement to be true. Your grocer sells Non-Such. Try it, and satisfy yourself. You are the one.

**Harry Forbes.**  
Harry Forbes, the Chicago boy, is now manager, match maker and boxing instructor of the Davenport (La.) Athletic club. He will also don the mitts occasionally in six round bouts.

**Jude With Toledo.**  
Frank Jude, star end of the Carlisle football team and outfielder on the Indian school team, has signed with Toledo.

**Catcher Peterson.**  
Catcher Peterson, who played with Harrisburg last season, has signed with the Boston Americans.

### ANNOUNCEMENTS.

**FOR SHERIFF.**  
I hereby announce myself as a candidate for the Republican nomination for the office of sheriff, subject to the approval of the Republicans at the primaries and in convention.

CHARLES B. GRAFF.

**FOR COUNTY CLERK.**  
I hereby announce myself as a candidate for the nomination for the office of county clerk, subject to the decision of the Republican voters in primaries and convention.

JAMES S. MERRILL.

**FOR COUNTY JUDGE.**  
I hereby announce my candidacy for the office of county judge of Morgan county, subject to the decision of the Republican voters at the primary election, to be held April 23, 1906, and the convention following.

W. M. MORRISSEY.

**FOR SUPERINTENDENT OF SCHOOLS.**  
I hereby announce myself as a candidate for the office of county superintendent of schools of Morgan county, subject to the decision of the Republican voters at the primary election to be held April 23, 1906.

M. L. TEST.

**FOR ASSESSOR AND TREASURER.**  
I hereby announce myself as a candidate for the nomination for the office of assessor and treasurer of Morgan county, Illinois, subject to the decision of the Republican voters at the primary election.

J. W. McALLISTER, JR.

**FOR REPRESENTATIVE.**  
I hereby announce myself as a candidate for the Republican nomination for representative in the general assembly from the Forty-fifth district. If re-elected I shall vote for the Republican candidate for United States senator receiving the highest number of votes in this senatorial district, and shall assist the state administration in its efforts to improve the public service of the state.

FRANK J. HEINL,

Jacksonville, Ill.

### SENATORIAL GOSSIP.

Rumor regarding the candidate for state senator from Morgan county has been responsible for the mention of a number of prominent Republicans in this connection. Many friends of George W. Scott, water superintendent, have urged him, to make the race and up to yesterday it was hoped by many that he might consent to become a candidate. It is understood, however, that Friday afternoon he made definite announcement to the effect that he would not be a candidate. C. F. Wemple, whose name was mentioned as a likely candidate, it is understood, has reached a similar conclusion.

As the date of the primary draws near the name of Harry M. Ticknor is again mentioned for the senatorship and it is possible he will yet yield to the persuasion of friends and make the race.

### HINTS FOR FARMERS

#### The Ewes in Spring.

During recent years it has been a practice to clip ewes as soon as possible after the lambing season, and we have been well satisfied with the result, writes a correspondent of American Cultivator. The wool presents a much better appearance and is free from weak spots. It is well known that it is difficult to keep a good milking ewe from going down in flesh, and this is sure to weaken the strength of the staple. The ewes must necessarily be stabled much of the time, and the lambs soon begin to tramp over them when lying, which soils and injures the wool. We clip without washing and select a mild spell of weather for doing it, and when they have been clipped for a few days a cold flurry does not seem to affect them, but if out when a rain comes they rapidly gather to the shed, and this is a decided advantage to the lambs, as they will often remain out if not clipped until the lambs are very cold. After clipping both the ewes and lambs seem to improve more rapidly.

#### Southern Trotting Circuit Dates.

Harness racing men representing the tracks of the Maryland and Virginia circuit have arranged dates for eleven trotting meetings next fall. The circuit is to open at Norfolk on July 31, and from thence the horses will go to Chesley, thence to Portsmouth City, Rockville, Folchester, Timonium, Baltimore, Easton, Washington, Baltimore, Hagerstown and Frederick, winding up the season on Oct. 13. Spring trotting meetings are to be held at three tracks in Baltimore this year.

#### Rufe Turner Won.

Rufe Turner of Stockton knocked out Barney Mullin of Seattle in the first half of the opening round of their twenty round contest at Stockton, Cal., recently. With a short right swing he stood Mullin on his head, and it was a quarter of an hour afterward before Mullin knew what had happened.

## CONSIDERABLE LOCAL INTEREST

**Attaches to Following Paragraphs Taken From Issue of New York Independent in 1854—Paper Declares Illinois "Healthy State."**

The following articles are taken from a copy of the New York Independent of Sept. 14, 1854, and are of considerable local interest. The paper is the property of Mrs. Cornelia Sanders:

"Healthy—Illinois is a healthy state, one would suppose, from the fact stated by the Jacksonville Journal that in the year 1829 (twenty-five years ago) four families having emigrated from one of the older states to Illinois, settled in Morgan county. In these four families there were thirty children, cousins to each other, all of whom are still living.

"Illinois Central Railroad. Few persons fully appreciate the quantity of land that is contained in the grant in aid of the Illinois Central railroad. The quantity is 2,000,000 acres. How much is 2,000,000 acres? Neither more nor less than the dimensions of the whole state of Connecticut! As follows: Official returns of Connecticut, 2,333.53 acres; lands patented to the Illinois Central railroad, 2,572,000 acres.

"A person or company that should own the whole state of Connecticut in fee free of debt, with all its rivers, rocks, swamps, bays, hills, dunes and valleys, would be possessed of a good farm, notwithstanding that a very large proportion of it would be unproductive, being unsuitable of cultivation, and ineligible for occupation. The state of Connecticut contains 300,000 inhabitants, 60,378 dwellings, 57 miles of railroad, and a taxable valuation of \$300,000,000.

"This is what has grown up upon a 'patch' of land equal to the quantity owned by the Illinois Central railroad, but far beneath it in value. The land owned by the road is all selected for its fertile qualities and eligible location. There is none of it waste or unprofitable. There is no portion of it remote from railroad conveyance to the best markets north and south. It is all accessible to the most abundant supplies of bituminous coal. The whole quantity of coal in the whole union is 135,000 miles, one-third of which is in Illinois. The supply of timber by railroad from the north is limitless. Here are all the elements for the support of an immense population."

## In Society.

Lambert Hastings was very agreeably surprised Friday evening by a number of his friends who came upon invitation of his estimable wife to enjoy a 6 o'clock dinner, and assist him in celebrating his birthday. The whole function was planned by Mrs. Hastings, and the surprise was complete. A splendid course dinner was served, and was certainly a tribute to the mistress of the house.

Capt. W. A. Kirby, on behalf of the guests, in a neat speech, presented Mr. Hastings with a handsome rocker as a token of the esteem in which he is held by all who know him. Mr. Hastings was completely overcome, but managed to express his appreciation in fitting words.

Those present were R. R. Stevenson, W. A. Kirby, Jonas Lashmot, James Breckon and son, John Staff, John Summers, W. W. Carter, W. L. Carter, Joseph Breckon and James Terry. A number of ladies were also present and assisted Mrs. Hastings.

### FUNERAL NOTICE.

The funeral of Joachim Vieira will be held Sunday afternoon at Jordan street church, in charge of Rev. R. F. Cresser. Interment will be in Jacksonville cemetery.

### Matting Horses.

When a brood mare is weak in any important quality be careful to select a stallion with which to mate her that is strong in that particular quality and from a family which is noted for excellence in that quality. Rapid gaited, short striding mares should be mated with big gaited stallions, and vice versa.

Waiting doesn't pay. If you neglect the aching back, Urinary troubles, diabetes, surely follow.

Doan's kidney pills relieve backache. Cure every kidney ill.

Jacksonville citizens endorse them. F. A. Kaule, of 303 East Independence avenue, engineer at the Davis & Snyder ice plant on North Main street, says:

"After being cured myself by Doan's Kidney Pills I recommended them to a friend who was suffering severely and a few days after, seeing him almost as well as ever, he said: 'Doan's Kidney Pills are a splendid remedy.' I had such heavy bearing down pains in the loins that I could hardly get up and if I stooped down to do anything my back felt as if it would almost break before I could get straightened up. Medicine did not do me any good. When I saw Doan's Kidney Pills recommended I made up my mind to try them. I experienced a soothing sensation through the loins after the first dose and in a short time the aches and pains disappeared."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States.

## MATRIMONIAL

**PINKERTON-DESHAZIER.**  
Herbert W. Pinkerton and Miss Tina Deshazier, both of Berdan, Greene county, were married Friday morning at 9 o'clock by Squire Dyer at his office in the Dowd Building. The groom is a farmer.

The bride and groom to be arrived in the city Thursday evening via the Alton, and lived themselves to the court house. It was very evident to the loungers whether their steps were bent, and upon what mission, and when they turned away from a locked door to await the opening of the county clerk's office in the morning, the look of disappointment on the young man's face was the subject of amused comment on the part of many. Friday morning the groom was up betimes, and secured the necessary document as soon as practicable. He then hurried to the nearest justice, who happened to be Squire Dyer, and he supplied the witnesses for the ceremony.

Both parties seemed to be very respectable young people. They have returned to Berdan, where they will go to housekeeping.

### Baseball goods. Ledford's.

**MATT STARR POST.**  
At the meeting of Matt Starr Post, G. A. R., held Friday evening, the members were favored with an address by James Hodges, of Missouri. The remarks of the veteran were of great interest, and were heard with the closest attention.

## City and County

Walter F. Ogle, who is attending Armour Institute at Chicago, is visiting relatives here during the spring vacation.

At Blackburn-Flores Co.'s you can now see the latest creations in new spring millinery.

Mrs. J. K. Cunningham and daughters, Miss Stella and Mrs. H. E. Million, all of Murrayville, were in the city Friday.

The Worst Man by Phi Nu society Monday evening, March 26, 8 o'clock. Woman's College. Admission 25c.

A new restaurant, the Delmont, has been opened by John Merrick on the east side of the square next to Baker & Perry's store.

See adv. on page 3. Nat. Tea Co.

S. J. Parker, of St. Louis, was in the city yesterday and left on the afternoon train for New Berlin on business interests.

The remains of J. D. Brewer arrived in the city Friday morning from Oerro Gordo, but the time of the funeral has not been set.

Leave your order with GARLAND & CO. for a SUIT or TROUSERS made to measure.

Mrs. E. N. Geis returned to her home in Creston, Iowa, Friday after a visit with her grandmother, Mrs. H. Harrigan and family.

Mr. and Mrs. G. W. Quackenbush and daughter, Hilda, of Peoria, are guests of Mr. and Mrs. W. T. Beauch on West College avenue.

Richard Green Moulton says of Shakespearean plays by Ben Greer company: "I consider them the finest performances of the Shakespearean comedies I have ever seen."

Mrs. Ensey Moore returned Friday from Lincoln, Neb., where she attended the wedding of her niece, Miss Cora Francis Smith.

Uncle George Gons was a visitor in the city yesterday. The old had weather has kept him indoors, somewhat, but he is still hale and hearty.

We are on our way to Harney & Packard, 230 South Main street, for our Saturday marketing; we got the best meats there always; both phones.

Uncle Jack Henderson and wife were down from Arcadia yesterday.

### "HOT STUFF"

A Man With a Small Coal Bill.

The man who has a small coal bill, but has kept his house warm and comfortable as well as a magician—he simply filled his bins with GATES' "Ideal Coal."

A free burning coal, the best fuel.

R. A. Gates & Son

Phones: Bell, 1803; Ill., 10.

though they went to the station and road on the train as the roads were too bad for driving.

To day only, with every 50c purchase at Schaefer & Hopper's meat market, a dollar's worth of trading stamps. South Main street.

Sylvester Carter, who has been attending the Toronto Veterinary college, at Toronto, Can., has returned home for the spring and summer. He was accompanied from Chicago by his mother, Mrs. Samuel Carter, who has been visiting her sister there.

Miss Katie Taylor, daughter of Angus Taylor, of Little Indian, was expected to arrive home Friday from Oxford university at Oxford, Ohio, for a vacation of ten days or two weeks. Before her return she will be the guest of Miss Beulah Dyer of this city.

To day we put on display everything that is new in spring hats for ladies, misses, and children. Blackburn-Flores Co.

Gus Johnson has returned to Kansas City after visiting his parents, Mr. and Mrs. H. Johnson, of this city.

Charles C. Capps has special reason to recall the night of March 24th, 1877, as that night his first child was born and at the same time it snowed so that next morning the tops of many of the fences were covered.

Mrs. Grierson was unable to get down to see her first grandchild and was impatient enough accordingly. The snow didn't stay long, but made mud enough when it went off.

To day only, with every 50c purchase at Schaefer & Hopper's meat market, a dollar's worth of trading stamps. South Main street.

Henry Jackson, who has been making the express run on the Wabash between Decatur and Moberly, Mo., is taking a vacation of thirty days, which in company with his wife, he is spending with his father, J. W. Jackson.

Mr. and Mrs. E. S. Young left last night for Chicago where they will make their home with their son, Floyd, at 6515 Yale avenue. Their many friends will regret to have them leave the city, which has been their home for so many years.

Ledford's for magazines.

O. C. Henry was fined \$25 and costs in "Squire Arceiz" court for keeping his saloon open after hours. The arrest was made by Capt. Kennedy.

### ORDERED TO LEAVE HOTEL

Man and Woman From Macomb Raised Disturbance at Dunlap House—Dispute Over Bill—Officer Called.

Two guests at the Dunlap Hotel, whose names on the register appeared as H. Z. Pan and Mrs. Stein Runkle, were ordered to leave the hotel early last night. They came to the hotel late in the evening and registered and Pan was assigned room 19 and Mrs. Runkle room 25. About midnight complaint came to the office of the hotel that the occupants of room 25 were raising such a disturbance the guests of the house could not sleep. Night Clerk Schermerhorn went at once to the room and satisfying himself that there was a man in the room, ordered the man to come out. The woman declared that there was no man in the room, but the night clerk insisted upon his orders being obeyed and backed them up with threats to break the door down if compliance was not made. Pan then came out of the room and himself and Mrs. Runkle were ordered to leave the hotel. When Pan came down to the office he disputed his bill and Clerk Schermerhorn telephoned the police station for an officer. Officer Fortado was sent to the Dunlap House, but by the time of his arrival Pan had settled his bill and both parties had left the hotel. It could not be learned where they went from the Dunlap House.

## DEATH RECORD

KUMLE

Alves L. Kumle, of Alexander, deputy sheriff of Morgan county, died at his home Friday morning at about 11:15 o'clock of hemorrhage of the stomach. He had been in Springfield and returned home Thursday night very ill. During the night he was under the care of Dr. Edmunds, who Friday morning called Dr. H. C. Campbell, of this city, in consultation. Nothing could be done for the patient, however, and death ensued as stated.

The sudden death of Mr. Kumle became known to his friends throughout this vicinity Friday afternoon. It was a decided shock to all. He was very well known in his own neighborhood and everywhere throughout the county, having served formerly as deputy assessor for Alexander and vicinity for four years, and as deputy sheriff during the present term of H. J. Rogers. He was also formerly a bookkeeper in the old Central bank, and was known as an excellent accountant.

Mr. Kumle leaves his wife, two sons, Harry and Sebastian, and one daughter, Emily; also three brothers, Joseph and William, of Alexander precinct, and Emil, of Chicago. He was 42 years of age.

The funeral will be held at the Christian church in this city Sunday afternoon at 2 o'clock, and interment will be in Diamond Grove cemetery.

The remains will arrive in this city Sunday afternoon on the 1:35 train via the Wabash, and will be met at the junction by the members of Jacksonville Lodge No. 152, K. of P., in whose charge they will remain until conveyed to the cemetery.

RANSOM

Relatives in this city have received word of the death in Wichita, Kas., of George L. Ransom, son of Peter Ransom, of the Mound. No further particulars were received, but the remains are expected to arrive to day in charge of his father, who left here for Wichita Thursday.

The deceased had spent considerable time of late years in the west for the benefit of his health, and was on his way home when death ensued. He was about 25 years of age.

HARRISON

A. H. Coffman has returned from Greenwood, Mo., where he attended the funeral of his brother-in-law, W. H. Harrison. Mr. Harrison died Saturday at 2 o'clock, and the funeral was held Monday at 2:30, in charge of the Odd Fellows and the Knights of Pythias. He leaves his wife, a sister, of Mrs. Coffman, and four children.

The widow expects to remove to this city with her children in a few days.

SYDNER

Mrs. Samuel Eastman has received word of the death in Cincinnati of her sister, Mrs. Minerva Sypher.

Let no one fail to attend Heruan's unrivalled Easter millinery reception Thursday. The millinery display will undoubtedly be the handsomest ever exhibited. Special attention is called to the show window which will excel anything similar. The extraordinary concert to be given by Prof. Jeffries and his talented associates will no doubt attract much interest.

WEDNESDAY MUSICAL CLUB.

The members of the Wednesday Musical club held an open meeting at the Woman's college Friday evening, when Mr. and Mrs. Franklin L. Stead were host and hostess. There was a large attendance of members and a Beethoven program was given in an excellent manner as follows:

Overture to Leonore—Mrs. Tilden and Mrs. Snyder.  
Sonata Op. 26—Miss Larimore.  
Romanza in G Major, Op. 40—Professor Hoblit.  
Sonata—Mrs. Harwood.

Read the Journal: 10c a week.

## ENTHUSIASM PREVAILED

At Woman's College Over Announcement of Carnegie Gift—Pupils Granted Half Holiday—Speechmaking at Chapel Exercises.

Enthusiasm knew no bounds at the Woman's college Friday morning when Dr. Harker at the chapel exercises announced the offer of \$25,000 for the college from Andrew Carnegie. Lessons were not to be thought of upon such an occasion, and the entire morning was given up to merry making.

When order had been to some extent restored, Dr. Harker explained the proposition of Mr. Carnegie, and read the resolution adopted by the board of trustees. Mrs. Lambert, speaking for the board of trustees, followed; Miss Weaver, lady principal, spoke for the faculty, and Miss Holmwood, of the physical culture department, for the gymnasium.

Mr. Stead represented the College of Music; Miss Knopf, the art department; Miss Miller, Belles Lettres society; Miss Postel, Phi Nu society; Miss Sidel, the Y. W. C. A., and Miss Sheppard, the athletic association. Dr. Shumard, of Belleville, spoke briefly, and A. C. Wadsworth, president of the board of trustees, much to the delight of all present, addressed the students in a few earnest words. This was the climax of the occasion, and was followed by a demonstration probably unequalled in the history of the school.

Dr. Harker graciously granted the young ladies a half holiday, and at the conclusion of the chapel exercises they made the hall of the college ring with their cheers, class calls and other exhibitions of joy. All the members of the faculty, trustees and other friends of the college being remembered. They finally sought out Miss Holmwood, who was particularly active in raising funds for the new gymnasium, which has now given way to greater things, and carried her in their arms to the president's office.

When means of expressing their great enthusiasm in the building had been exhausted, the students assembled on the campus, where a huge bonfire was lighted. They proceeded in due form to burn the plans for the proposed gymnasium, and Miss Ransom, of the senior class, delivered a very clever parody of Marc Antony's oration over the body of the dead Caesar, for the ashes of their former hopes which were destroyed to make possible greater and better things. These exercises were followed by a college singing in the chapel, and although quiet finally pervaded the institution, it will be long before the memory of the day and all that it meant fades from the minds of the pupils and teachers.

MODERN WOODMEN

Local Woodmen indulged in a "love feast" in Odeon hall Friday night, upon invitation of the new camp Unity No. 1689, Duanean Grove camp No. 132 and Jacksonville camp No. 912 were present upon invitation, as were many Woodmen from the surrounding territory. The occasion was the presence of Hon. G. W. Riley of Danville, chairman of the national board of directors of the order.

Friday was the regular meeting night of camp 469 and after the necessary business had been discussed of Mr. Riley was introduced and delivered a splendid address. He has been chairman of the board of directors for many years and is credited with having made Illinois the banner state in Woodcraft. He spoke of the organization, its objects and purposes, and the growth of the order, and paid an eloquent tribute to its splendid history. His remarks were greeted with tremendous applause.

At the conclusion of Mr. Riley's address speeches were made by District Deputy D. H. Griggs, M. H. Goodrick and Marshall Miller, for No. 132; J. N. Joquin, E. M. Vasconcellos, J. N. Vasconcellos and Joseph Gomes for 912, and Judge Berryman for the Nortonville camp. The meeting closed in regular form, after which an informal reception was tendered Mr. Riley.

POLICE NEWS.

Chief of Police Davis, Captain Kennedy and the night force raided the disorderly house of Carrie Woods Friday night and arrested the keeper and seven inmates. The inmates were: Harry McGowan, Kittie Josef, William Jayne, Edward Watson, Anna Moore, Pauline Greg and Elsie McLaughlin.

House Vandewater was arrested for drunkenness by Chief of Police Davis and Captain Kennedy.

Bloomington Postgraph: W. R. Everett, the inventor of the motor car which is now under construction in the Alton shops, and W. S. Hendrickson, his chief mechanical engineer, arrived here from Chicago to inspect the car. The motors have been attached to the trucks and the trucks go under the car in a day or so. The work of installing the machinery is well advanced and the yard tests may be made within two weeks. The formal test on the road, however, will not be made before April 15. It is proposed to run the car with a buffet trailer from Chicago to St. Louis at full speed in order to demonstrate what the power can do.

## A "World of White"

AT THE

## TRADE PALACE

This is the Greatest White Season the World of Fashion has Ever Known.

In giving this "world of white" sale we want to impress you not only with the size and variety of our white stocks and the lowness of the regular and special prices, but also with the preparedness this store always shows in meeting the requirements of fashion in the progress of the world.

Formerly the White Goods Department comprised a very small part in the makeup of the stocks of a Dry Goods Store.

To day every fabric in wash goods, every weave in woolen goods, each and every part of the wearing apparel whether woven or knitted enters into the making of a "world of white." You are bound to need these later if not now.

If we could always sell goods for these prices you'd never have heard a word from us about "special sales." But we can't and as prices must inevitably return to their normal level the minute this sale comes to an end, you should come here now.

### Special Values.

Sheets, Pillow Cases, Muslin Bed Spreads, Embroideries, Laces, Handkerchiefs, Ribbons, Gloves, Muslin Underwear, Linens and Lawns, Wool Batistes, Albatrosses, Cashmeres, Mohairs, Serges, Acetates, Voiles, Wool Taffetas, Lansdowns and Danish cloths. Also Hosiery, Corsets, India Linens, Persian Lawns, Mercerized Batistes, Silks, Shirt Waist Suits, Shirt Waists and Lace Curtains.

## MONTGOMERY & DEPPE

## POLITICAL COMPLICATIONS

## Numerous in Morgan and Sangamon County District—Failure of Judge Barnes to Run For Senate Puts Democrats in Quandary.

Refusal of Judge Charles A. Barnes of Jacksonville to accept the nomination for state senator on the Democratic ticket in this district has thrown the Democrats into a quandary. It is said that no available man has been found in Morgan county to take Judge Barnes' place and it is not unlikely that the senatorial candidate will come from Sangamon county.

When the senatorial committee met in Springfield several weeks ago it was recommended that the senatorial candidate be a Morgan county man and that the representative on the ticket come from Sangamon county. The senatorial honor was then offered to Judge Barnes, who took the matter under consideration and after decided to accept.

It is expected that the senatorial committee will be called together within a few days to take some action in the matter. In the event that it is decided to select the candidate for senator from Sangamon county, it is said that Thomas Rees will be chosen, although friends of former Senator George Funderburk are urging that he be named instead of Rees.

OTHER DIFFICULTIES PROBABLE. To make the change at this time will bring about other difficulties. There are already a number of Democratic candidates out for representative. All are from Sangamon county and the list includes Attorney Henry L. Child, Charles McBride, Charles Schermerhorn and Edward L. DuBois. These men have been making an active campaign for several weeks and if the senatorial committee decides to switch the senatorship to Sangamon county it will mean that the representatives will be Morgan county men and he candidates now in the field have been working for naught.

Judge Barnes is a candidate for the lead office in the Knights of Pythias which pays a salary of \$5,000 a year for two years. His term as judge of Morgan county expires this fall. The Democratic senatorial committee, when it held its meeting in Springfield, had not expected Judge Barnes' refusal. It said the committee would have endorsed Senator Rees for re-nomination and he come out flatly and stated that he wanted it.

FETZER ANNOUNCES CANDIDACY. Charles Fetzer of this city has announced his candidacy for the Republican nomination for representative. Mr. Fetzer was a member of the last general assembly. His papers of nomination were put into circulation yesterday. The petition of Frank J. Heintz of Jacksonville, who also seeks re-nomination as Republican representative, have arrived and are now in circulation.

The Yates candidates for senator and representatives have not yet been announced. It is said that the announcements will be forthcoming this week. The Cullom headquarters for Sangamon county were opened yesterday on the second floor of the Unity building, before in Bankruptcy E. S. Robinson is in charge as secretary. H. E. Cameron is manager of the quarters. James Loomis is janitor and Miss Richards is stenographer.

COUNTY COMMITTEE TO MEET. Richard M. Sullivan chairman of the republican county central committee, yesterday issued a call for a meeting of the committee to be held at 1:30 o'clock Saturday afternoon in the supervisors' room in the court house. The purpose of the meeting is to issue a call for the county primaries and convention and to decide whether the choice of candidates by the primary shall be by plurality or majority vote. It is understood the committee will favor the plurality plan. The representation is also to be fixed by the committee and other preliminary arrangements made for the primaries.

## A REMINISCENCE OF FORTY YEARS AGO

Editor Journal: I have read all that the Journal contained about that veteran of "Cook's Crampers" (7th Ills.) which "relieved very much."

Forty years ago to day I remember well, we were then with our company (115th U. S. V.) in New York City. As we wended our way in charge of a squad of seven men up Broadway to the headquarters of the mustering out officer we were in high spirits, the prairies of old Morgan county loomed up before me I thought of the "Old Oaken Bucket" that hung in the well, and at precisely 11 o'clock in the morning Major Quirk as we stood at attention heads uncovered, this courteous officer said: "Sergeant call the roll of your men." I did so with as much pride as if I were a gladiator. Each man signed the muster out roll, then Major Quirk with a large quill pen attached his name to the roll and each man's discharge. Then and there we ceased to be in the military service of the grandest government this side of the Pearly Gates of heaven.

The war of the southern rebellion was ended, I in a very humble manner had lived through the terrible ordeal of march and bivouac, of shot and shell, but the thing that crushed my feelings more than all of the sufferings and privation incident to an active service from 1861 to March 21, 1866 was the cruel murder of that grand and good man from whose heart and lips went forth that heavenly message, "With Malice Toward None, With Charity to All." Abraham Lincoln was dead, then, as those thoughts like a moving panorama had fled through my mind I remembered Garfield's speech, "God reigns, and the government of the

Washington lives." Yes, I thought again that in my humble way I with my regiment and company had the honor of serving as the guard during the trial of the conspirators and served as guard at the old Capitol prison on the day of the execution of these conspirators. As we stood in line on that I as now gazed over the fact that I was an eye witness to a feeble retribution. As I look back through the misty veil of forty years since I was discharged, I am thankful to God for His goodness and mercy. I rejoice in the knowledge that I can meet the old comrades of my company and regiment in love and loyalty to my country and flag. There is nothing grander in our life history than to be glorified in Old Glory and the Little Red school house.

M. J. Clifton.

## PRETTY SAFE RULE TO GO BY

If there is a feeling that the heart or lungs, blood or liver, brain or nerves are diseased, commence to doctor the stomach. That is the cause of 90 cases out of 100. Diseases that begin in the stomach must be cured through the stomach. The medicine for stomach disorders is Dr. Cassin's Improved Liver Pills. Sold by druggists for 25 cents a box. One pill is a dose. They put the organs in such condition that disease has no basis to work upon. Write Dr. Rosanko Co., Philadelphia, Pa. For sale by Lee P. Allen.

Britt and Hanlon. It is now said that the next fight to be fought in Mechanics' pavilion, San Francisco, will be a twenty round battle between Jimmy Britt and Eddie Hanlon, the California fighter.

EDDIE HANLON

Hanlon has consented to don the gloves, and as Britt is willing to meet him the articles of agreement for the contest are expected to be signed by the fighters in a few days.

## Athletic Gossip From Britain.

In his latest letter from London pertaining to English sports William J. C. Kelly, the former assistant secretary of the Public Schools Athletic League of New York, points to the fact that the Amateur Athletic Association of Great Britain has just adopted a new definition of a novice. It is as follows:

"A man who enters a novice and a handicap event, wins a heat in the novice race and then wins a prize in the open event still retains his eligibility to compete in the final heat of the novice race on that day."

The association accepted the offer of 5,000 francs from the Olympic games committee toward the expenses of British athletes, ruling that this was a bona fide international competition and that the expenses of the competitors may be paid, provided they are not paid direct to the competitors themselves. If funds are left with the Amateur Athletic association its championship committee will pick the team. It was also decided that the spirit and letter of agreement between the National Cycling union and the Amateur Athletic association be adhered to, but that under no consideration shall professional foot races take place under the auspices of the National Cycling union, where amateur cyclists take part.

## New Wisconsin Athletic Rule.

University of Wisconsin athletes in the future will not be allowed excused absences from classes while in the pursuit of athletic honors. The new rule applies to members of athletic teams representing the university and is a direct shot at members of the baseball team, which is generally allowed to take long trips playing the conference teams and always in the past has been granted excused. The same principle is generally granted at all the leading universities and colleges in America. The ruling by the Wisconsin faculty is one which, if applied to all athletic teams in colleges, will help matters a lot.

## FOR THE HOUSEWIFE

## Washing Woolen Garments.

Woolen garments require careful washing. The clothes should be placed to soak in water in which soap has been dissolved.

To about every six gallons of water (or sufficient for washing six large garments and several smaller articles) add three tablespoonfuls of liquid ammonia, which removes grease deposited by perspiration.

Any good soap may be used, but ammonia soap, which combines ammonia in the proper proportion, is recommended. The proportion to be used is three-fourths of a pound in six gallons of water.

Over the clothes well up, as the sustained heat assists the removal of grease.

After an hour's soaking wash out by drawing through the hand, avoiding rubbing. Very dirty spots should be brushed with a soft brush.

To thoroughly remove the soap rinse out twice in lukewarm water.

## Cooking Notes.

A teaspoonful of lemon juice to a quart of water will make rice very white and keep the grains separate when boiled.

When making a steamed or boiled pudding put a plait in the cloth at the top to allow for the pudding to swell.

A bit of coldish added to salty or vegetable oyster gives that delicate vegetable a flavor that heightens the resemblance to the hivalve.

## To Brighten Gilt Frames.

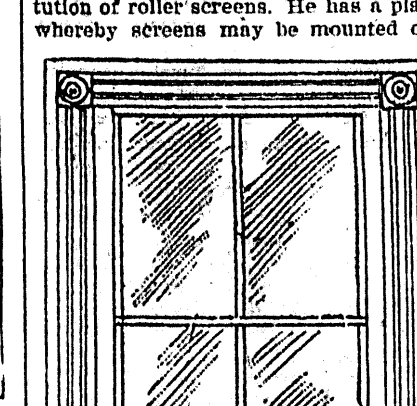

To renovate and brighten the gilt frames of pictures and mirrors that have become rusty and dingy simply wash them with a small sponge moistened with spirits of wine or oil of turpentine, the sponge only to be sufficiently wet to take off the dirt and fly marks. They should not be wiped afterward, but left to dry of themselves.

## Black Walnut Stain.

For the oil stain the base is raw linseed oil, with the color ground in oil and thinned with turpentine. For black walnut burnt timber is used, with the addition sometimes of a little black, but this latter tends to make a muddy stain and is not advisable. The desired tone is obtained by successive applications.

## Rolling Window Screen.

Just about the time the fly screen with its wooden frame was reduced to a standard form, except of course as regards the minor details of construction, an inventor proposed the substitution of roller screens. He has a plan whereby screens may be mounted on

HOLLS FROM HOTTOM.

rollers arranged at the bottom of the window and adapted to be raised to any desired height as occasion may require, but which fold up out of the way when not in actual service. The general plan of the scheme is indicated in the accompanying cut.

## Pressed Beef.

Chop or grind three pounds of lean meat fine, add two eggs beaten, one-half cup of milk, four well crackers, one-half cup of melted butter, one level tablespoonful of salt and one level teaspoonful of white pepper. Mix well and pack in a bread tin. Bake two hours covered and when cold serve in thin slices.

## Honey as a Medicine.

Honey makes an excellent gargle for sore throat. Boil one teaspoonful of honey in a cup of soft water and gargle freely. This same preparation also makes an excellent eye wash. Dip a clean piece of linen in the honey water and lay over the eyes.

## Raw Beef For Invalids.

Raw beef proves of great benefit to persons of frail constitution and to those suffering from consumption. It is chopped fine, seasoned with salt and heated by placing it in a dish of hot water. It assimilates rapidly and affords the best nourishment.

## Cooking Old Potatoes.

Old potatoes are very apt to turn a dark color in the boiling, but the way to prevent this is easy enough. Add a tablespoonful of milk to the water in which you boil them, and you will find they are beautifully white when cooked.

## CHAMBERLAIN'S COUGH REMEDY A FAVORITE.

"We prefer Chamberlain's Cough Remedy to any other for our children," says M. L. Woodbury of Twinning, Mich. "It has also done the work for us in hard colds and croup, and we take pleasure in recommending it." For sale by all leading druggists.

## Why Run the Hazard

of accepting personal security upon a bond, when corporate security is vastly superior?

The personal surety may be financially strong to-day and insolvent to-morrow; or he may die, and his estate be immediately distributed. In any event, recovery is dilatory and uncertain.

Because of its greater stability, the United States Government prefers Corporate Suretyship. Follow its example, and, when you require suretyship of any kind, insist upon having the bond of the largest company in the world whose business is restricted to furnishing suretyship obligations.

positively removes all worms, leaving no after effects. Cures all worms, including tapeworms, roundworms, pinworms, etc. No more backache, indigestion, or loss of appetite. Write for full particulars and free sample.

Kickapoo Medicine Co., Clintonville, Conn.

## CERTAINTY OF CURE

IS WHAT YOU WANT

THE ILLINOIS STATE BOARD

OF HEALTH

ISSUES IMPORTANT BULLETIN

The State Board of Health has issued a bulletin which contains a concise form the latest information regarding Consumption. Between 7000 and 8000 die annually from this disease in this state. One out of every four deaths between the ages of 20 and 40 in Illinois are caused by Consumption. The bulletin says:

"The first symptoms of the disease may be loss of appetite and loss of weight, failure on slight exertion, general feeling of languor, lack of energy and ambition, rapid pulse, fever in the afternoon and evening and a cough which is most noticeable in the morning. \* \* \* Then take other individuals who are subject to 'colds,' these colds occurring with increasing frequency and of Consumptive treatment more stubbornly than the one that preceded it; these attacks leading to the one which remains. Such an onset is so insidious that the disease is often firmly established before the patient's suspicion as to the nature of his ailment is at all aroused. Many cases of Consumption progress to a serious stage supposed to be 'chronic grippe,' 'chronic influenza' or 'dysentery.'"

It is a well known fact that many cases of Catarrh and Bronchitis trouble terminate in Consumption and conditions could have been cured had they been taken in time. The symptoms of Catarrh of the Bronchial tubes are identical with those of Consumption. The disease is often firmly established before the patient's suspicion as to the nature of his ailment is at all aroused. Many cases of Consumption progress to a serious stage supposed to be 'chronic grippe,' 'chronic influenza' or 'dysentery.'"

The State Association for the Prevention and Cure of Tuberculosis says in a circular recently issued:

"Don't waste your money on patent medicines or advertised cures for Consumption, but go to a doctor or a dispensary. If you go in time you can be cured; if you wait until you are so sick that you cannot work any longer or until you are very weak, it may be too late; at any rate it will in the end mean more time out of work and more wages lost than if you had taken care of yourself at first."

It is agreed by all that the most important matter is early recognition of the conditions present and prompt treatment. All persons suffering from Catarrh in any form or any Lung Disease, should at once consult a physician who makes a specialty of the treatment of these conditions. By placing your case in his hands you have the advantage of his experience and special equipment which enables him to secure cures in cases which, under ordinary care, must certainly result fatally. Dr. Coen, whose specialty is the treatment of Catarrh and such chronic conditions, will examine any case of Catarrh and give his advice on all cases free of charge. If your condition is such that you can't be cured, he will tell you so honestly and plainly and will not accept your case for treatment. Dr. Coen's terms for treatment are very reasonable and are no more than you would be willing to pay for a perfect cure.

Dr. Coen's office is on West State street, opposite the court house, Jacksonville, Ill. Consultation at the office or by letter is free and strictly confidential in every case.

**INDICATIONS.**  
Washington, March 23.—For Illinois:  
Fair in north and snow or rain in the  
south Saturday; Sunday rain or snow.

**ICE HOUSE BURNED.**

George Seurlock has received a letter from his brother, Charles Seurlock, of Carbondale, Ill., in which he states that the ice company for which he works was last week destroyed by fire. Mr. Seurlock is manager of the house and as their building had been on fire in the early part of the week, but was put out without much damage, he decided to take out more insurance. This he did to the amount of \$15,000 and in just three hours the plant was in a mass of flames and it burned to the ground. The total loss was about \$10,000.

**Navel oranges, 18c per doz.**  
Snerly & Taylor.

**SEATS RESERVED TO DAY FOR  
HIAWATHA CONCERT.**

Seats may be reserved after 9:30 this morning at Smith's music store for the Jacksonville Choral club concert to be given at State street church next Tuesday evening. Coleridge Taylor's Hiawatha music is being given by many of the leading eastern Choral societies this season and is truly a wonderful piece of work. The soloists are the very best that could be secured and the chorus numbers almost ninety voices. Tickets: 50 and 75c.

**Ledford's for stationery.****THE 20th CENTURY LIMITED.

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

**STUDENTS OUT  
ON RAMPAGE**

**Failed to Break Up Performance  
at Bijou—Visit Woman's Col-  
lege—Rumpus on Hill—Om-  
cers Called—Students Nit.**

Friday evening a gang of about twenty-five youth, purporting to be students of Whipple academy, attempted to raise a "rough house" at the second performance of the Bijou theatre, but were thwarted in the attempt by the prompt action of Patrolman Montgomery, who was on duty there at the time. The boys entered the theatre in a group and soon after the opening of the performance began to make themselves obnoxious. Patrolman Montgomery called upon them to keep quiet and, seeing that the officer meant business, the crowd soon gave up their plans and left the building, leaving behind them the foul odor of sulphate of ammonia, which they had sprinkled upon the floor.

The management of the Bijou are very indignant at the action of the gang of youth, as were also the patrons of the place, especially those who had accompanied ladies to the place, and prompt measures will be taken to prevent such performances in the future.

Not satisfied with the results of their rowdiness at the theatre, the gang proceeded to the Woman's college and their efforts here failing to produce satisfactory results, they wended their way to the Hill. Here their conduct was such that Professors Willis and Brown felt called upon to summon the police. They believed that three of the guilty ones were cornered in a room, but when Patrolmen Powers and Tuttle arrived with the patrol wagon nobody was in evidence, and a diligent search failed to reveal any of the guilty ones.

Such conduct is nothing less than rowdiness, and should be called such. It is just as reprehensible, if not more so, in college students as in others, and should be strictly dealt with. An effort will be made to learn the names of those implicated in the outrageous proceeding of Friday night, and those who can be identified will be severely dealt with.

**RAILROAD NEWS NOTES**

It is expected that new time cards will be issued on the Alton and Burlington railroads to take effect April 1st. Many important changes are expected, although nothing definite has been given out in regard to what the changes will be. On the Alton it is expected that the evening train between Bloomington and this city will be replaced.

J. N. Green has taken a position with the C. P. & St. L. as baggage man.

Two cars were wrecked in the Burlington yard Friday morning. The engine from train No. 91 was placing a string of cars of coal on the side track and were running with such speed that it was impossible to stop before two were run through the bumping post. One of them, a C. P. & St. L. coal car, had all the wheels torn from under it and the other, a Burlington coal car, was turned over and was broken considerably.

The passenger business in and out of this city is now on the increase. The trains that during the real bad weather carried only a few passengers are now well filled.

After a long investigation extending throughout Europe, the management of the Burlington has decided to adopt a German steam motor for use on branch lines and on lines which come into competition with electric roads. The company is constructing in the Aurora shops a steam motor car, with which extensive trials will be made. Max Toltz, formerly of the Great Northern and the Northern Pacific, was engaged a year ago to make an investigation regarding the types of motor cars in use abroad.

The Chicago Inter-Ocean says: "The management of the Wabash railroad has been confronted with a demand for an increase of wages by employees engaged directly in operating that road. The increases asked are about 5 per cent. The demands are from employees east of Toledo being confined to the Wabash railroad proper."

Baseball guides. Ledford's.

**NEW CLARK  
GRAVE VAULT**

And Lock to Grave—Is Always  
on Guard—Absolutely Water  
Proof and Insures Perpetual  
Preservation of Remains—  
John G. Reynolds Has Agency

The rapid increase in the demand by the people for protection of the remains of their deceased from water has become remarkable in its growth. Of course any observing person knows that a vault built of brick will not exclude the water, because the brick are porous and the water will filter through the vault when the earth is full of water, and remain there. Cement and stone vaults will not have this objection, but after the casket is placed in and the stone covering over the top is put on there is a seam about twenty feet around to be closed. If the slightest defect occurs, if an opening as large as a needle is left open in the whole twenty feet then when the water is in the earth and above the vault it will slowly seep into it and after a time the vault will be full of polluted water that will remain in the vault even after the water has subsided from the surrounding earth. The Clark grave vault accomplishes its work simply because it is constructed to act in accord with well established natural laws. The laws to which we refer are in brief:

1st. Owing to their difference in specific gravity, in other words, weight, "air in escaping, ascends or goes upward; water descends or goes downward."

2nd. "No two bodies can occupy the same space at the same time." The Clark grave vault consists of the steel, lock frame, anchor and bars and steel hood. The lock frame is strongly made of bars of steel with eight spring locks and with rests for casket so that the bottom of the casket will be raised about two inches above the bottom of lock frame. The anchor bars are heavy steel bars pointed at one end about twenty inches long. The hood is made absolutely air tight of heavy galvanized sheet steel with strong wrought iron bars over top sides and ends on inside and with steel plates or clutches on the inside to catch the springs of lock frame.

For strength and durability, it has no equal. It is covered inside and outside with preserving paints adapted to the earth which will last for ages.

John G. Reynolds is the agent for the new Clark vault and has a supply always on hand. The price of the vault is very reasonable.

Ladies displeased with millinery elsewhere will find it a pleasure to trade at Herman's and receive the same agreeable attention as though they had been patrons of theirs always.

**A FAVORITE REMEDY FOR  
BABIES.**

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale by all leading druggists.

We Conform  
Hats  
to Fit the  
Head**MYERS  
BROTHERS.**We Make  
Shirts  
to  
Order**Advance Styles  
In Men's Clothes  
NOW READY**

THERE is an advantage in early selection of patterns and fabrics, which is appreciated by discriminating men who pay some attention to the proprieties of dress.

We have received several of the new Spring Styles, which may be termed exclusive fabrics, as there are only two or three of a pattern in each lot. These comprehend the season's novelties in light weight woollens.

We invite inspection of these by interested customers. Most of our advance styles are here and from these can be formed an exact estimate of the prevailing modes for Spring and Summer.

Suits, the new grays, form fitting long coats,

**\$7.50 to \$25.**

Top Coats and Cravenettes, grays and Coverts,
